INSPECTION: MOBILE UNIT

Inspection of a cosmetology establishment (including a mobile kit) is mandatory. The goal of coordinating an inspection is to ensure that cosmetology establishments are operating in compliance with industry legislation and policies, as well as operating in compliance with all other legislated safety protocols (i.e.: OHS requirements, etc.) for the safety of all cosmetologists, their clients, and other workers in the salon. Although inspections are typically conducted randomly, the Association is aware that salon hours may vary and will make every effort to accommodate operators during inspection (unless the Association has received a complaint against a cosmetologist and/or salon).

Note: it is an offence to deny an Association inspector access to a cosmetology unit for the purposes of salon inspection (*Cosmetology Act*, s. 41).
